

## All Spirit is Endowed with Light

All Spirit is endowed with light  
Of varying strengths and coloured hue  
From everlasting glory bright  
To everlasting love so true  
For light and love and truth are one  
And one is God the father  
For he is 'law' and with his son  
The two are one, or rather,  
They are in us and we in them  
That makes us three forever  
And knowing now from whence we stem  
We'll forward go together.
